*The role of cadres is very important because cadres support the success and are responsible for implementing the posyandu program starting from preparation, implementation and after the implementation of activities. However, not every cadre shows their activeness in this activity, because it is influenced by several factors, giving rise to a mismatch in the posyandu's achievements and targets. The aim of this research is to determine the description of the role of cadres in Posyandu services for toddlers in Langlang Village, Singosari Health Center Working Area, Malang Regency. The research design used is a quantitative descriptive research design. The population in this study was Posyandu cadres in Langlang Village with a total of 25 people. The sampling technique used in this research is total sampling. The instrument used is a questionnaire filled out by cadres whose validity and reliability have been tested by researchers. The data analysis used is descriptive analysis. The research results stated that all cadres played a good role in posyandu services, by; the role of cadres before opening day and during posyandu opening day in all posyandu was categorized as good (100%). Meanwhile, the overall role after posyandu opening day at Posyandu Melati 1 was in the good category (100%), Posyandu Melati 2, Posyandu Melati 3, and Posyandu Melati 5 were categorized as good (80%) and fair (20%), while at Posyandu Melati 4 the category good (60%) and some categorized as fair (40%). The role of cadres is very much needed in toddler posyandu activities. Therefore, it is hoped that cadres will play an active role in promotive and preventive activities and be able to become drivers, motivators and community instructors, especially to improve posyandu activity services.*
