

## FOREWORD

All praise be to Allah SWT (God Almighty) for His grace and guidance, the author has been able to complete this thesis titled "Analysis of Factors Associated with Patient Length of Stay Using the Time Frame Guide Emergency Model of Care Approach in the Emergency Department of Ngudi Waluyo Wlingi Regional General Hospital". The writing of this thesis is to fulfill one of the requirements for achieving the Bachelor of Applied Nursing degree in the Applied Nursing Study Program, Department of Nursing, Poltekkes Kemenkes Malang. This thesis was realized through the guidance, direction, and assistance of various parties whom the author cannot mention one by one, and on this occasion, the author extends gratitude to:

1. Afnani Toyibah, A.Per.Pen., M.Pd, as the Director of Health Polytechnic of the Ministry of Health, Malang.
2. Dr. Erlina Suci Astuti, S.Kep., Ns., M.Kep, as the Head of the Department of Nursing, Health Polytechnic of the Ministry of Health, Malang.
3. Dr. Arief Bachtiar, S.Kep., Ns., M.Kep, as the Head of the Applied Undergraduate Nursing Study Program, Health Polytechnic of the Ministry of Health, Malang.
4. Taufan Arif, S.Kep., Ns., M.Kep, as the thesis supervisor who has dedicated his time, effort, and thoughts, and patiently guided, directed, and provided invaluable input during the preparation of this thesis.
5. Rudi Hamarno, S.Kep., Ns., M.Kes and Budiono, S.Kp., M.Kes, as the chairman and members of the examination committee, who have provided motivation, guidance, and input to the author.
6. The management of Ngudi Waluyo Wlingi Hospital, Head of Emergency Department Ahmad Nurdin, S.Kep,Ns, Emergency Department Administrator Imas Nindi Fitriana, and the nurses of the Emergency Department, who have granted permission, provided support, and offered their cooperation during the data collection process of this research.

7. To my parents, father Mochamad Edy Susanto and mother Fitriyah, who have always been the author's motivation, constantly prayed for, and continuously encouraged the author; every prayer uttered and every encouragement given became the author's main strength in navigating every process of this educational journey.
8. The author also wishes to express gratitude to myself, for having persevered physically and mentally, and for continuing to move forward despite various challenges and doubts. Thank you for choosing not to give up and remaining committed to completing this thesis.
9. To Aditya Rizky Firmansyah was always present, providing encouragement and understanding throughout the research process. Thank you for the time dedicated to helping and comforting the author, and for the unending patience, support, prayers, and understanding during the author's most challenging times in completing this thesis.
10. To my best friends, Novela Marizka Az Zahra, Wildania Putri A, Reny Nur Indah F, Alfi Ika P, and Tiami Feby A, for all their invaluable support, encouragement, laughter, camaraderie, and the time they spent listening to my grievances during the preparation of this thesis..

The author realizes that there are still errors and shortcomings in the preparation of this thesis. Therefore, the author humbly hopes that readers can provide constructive criticism and suggestions. Thus, if there are many errors in this thesis, the author sincerely apologizes. May this final project bring benefits for the development of knowledge and particularly serve as a reference for future research related to Emergency Nursing and patient length of stay in the ED..
